TERMS OF REFERENCE

FOR

ENVIRONMENT SPECIALIST / ECOLOGIST

1. BACKGROUND

Ministry of Environment , Forest and Climate Change is extending the World Bank assisted ICZM Phase-II/ ENCORE project to all 13 Coastal States/UTs (Gujarat, Goa, Odisha, West Bengal, Andhra Pradesh, Tamil Nadu, Goa, Puducherry, Kerala, Karnataka, Daman and Diu, Andaman and Nicobar, Lakshadweep and Maharashtra) and preparatory activities for the Phase-II is in progress. **Karnataka SPMU** is the State Agency and State project management unit (SPMU) for implementing the Phase-II of the ICZM /ENCORE project.

2. OBJECTIVE OF THE ASSIGNMENT

- a. Environmental Specialist at the State Project Management Unit would manage all the environmental aspects associated with all sub projects in the State under the program; during all stages right from project Planning, Designing, Implementation,

Operation and Monitoring. All requisite inputs on environmental safeguards and good practices will be provided during planning and design stages. Inputs to environmental screening of projects, environmental categorization of subprojects, provide guidance to consultants and Project executing agencies / Project Management Consultants on preparing Environmental Impact assessment (EIAs) / Environmental Management Plans (EMPs), and review of the same will be conducted following the ESMF. The environmental expert will also supervise implementation of ESMF / EIAs during implementation, O&M and work close out stages as per guidance in the ESMF / EIAs. Adequate training on environmental aspects and ESMF will be provided by the Environmental expert. Roles and responsibilities of Environmental expert are detailed below:

3. SPECIFIC TASK OF ENVIRONMENT SPECIALIST:

a. Scope of the Environment Specialist services shall be as detailed below but not limited thereto: -

- ✚ Co-ordinate the Preparation of ESMF / EIAs / EMPs
- ✚ Guide all other project agencies and stakeholders on environmental aspects of ESMF and its applicability to the subprojects in the State.
- ✚ Co-ordinate with National Project Management Unit/s, support agencies, Project Execution Agencies, PEAs, Government agencies, communities, other stakeholders, the World Bank on environmental aspects of all subprojects (as applicable), including permits / licenses/consents and clearances.
- ✚ Prepare and Disclose ESMF including guidelines for impact identification (for goods, works and consultancy contracts), project screening, broad mitigation plans, guidance to prepare detailed impact assessment for projects, training to implementing agencies and other stakeholders, supervision mechanisms, monitoring requirements, training/capacity building needs, and budgetary provisions in contracts. This shall comply with all National / State regulations, local bylaws and guidance and World Bank Operational Policies and Safeguards requirements.
- ✚ Review the investment proposals (sub-projects) and ensure that environmental issues are properly addressed by development of a project-specific environmental analysis including (but not limited to) landuse, natural habitats, pest management, physical/cultural resources, forests, safety of dams, public consultations, and occupational health and safety
- ✚ Ensure full incorporation of environmental considerations / good practices in the preparation of ICZM Plans, studies, data base creation, surveys and all project ctivities
- ✚ Oversee the preparation of EIA with EMPs, Monitoring Plan and Training needs and inclusion of Environmental Management Plan and budget requirements in Contract documents so as to facilitate implementation of mitigation measures.
- ✚ Provide expert guidance to the beneficiaries in the preparation and successful implementation of the project environmental assessment instruments/documentation, including preparation of environmental impact/risk assessments and environmental management plans;
- ✚ Provide expert advice to the PMU team with regard to strategies and approaches to effectively and efficiently comply with relevant World Bank environmental safeguard operational policies and requirements

- ✚ Carry out site supervision visits during implementation of sub-projects and of other activities related to the Project;
- ✚ Ensure that safeguards documents are prepared on time and disclosed well in time before start of works and that all required clearances / permits / licences are obtained for projects. This shall comply with all National / State regulations, local bylaws/ guidance and world Bank Safeguards requirements.
- ✚ Conduct / co-ordinate Stakeholder consultations and consensus building as outlined by the ESMF and required by National / State regulations and World Bank guidelines
- ✚ Manage the environmental consulting firms engaged for specific projects.
- ✚ Ensure contractor has environmental experts in their team, prepare and follow Contractors Environmental Management Plans (C-EMP); as outlined in ESMF and maintain required permits / licenses / incident and grievance registers
- ✚ Monitor the fulfilment of the project-specific environmental requirements and environmental safeguards policies with respect to all project activities, in all direct and indirect contracts; ensure proper reporting by monitoring agencies at various levels (district/site); and maintain database and follow-up
- ✚ Assist and advise local bodies / PEAs from time to time in monitoring and managing contractors' activities that may have environmental impacts, if any. Conduct random audits for ESMF compliance during various project stages
- ✚ Develop, undertake and support training programs on Environmental monitoring and management arrangements developed in the Project;
- ✚ Report the status and progress of institutional arrangements and functioning of environmental arrangement along with any impacts that should be addressed. These should be reflected in the Project Progress Report to be submitted to the Project Director / Additional Project Director.
- ✚ Ensure that environmental assessment is an integral part of planning of all project supported schemes
- ✚ Ensure development/procurement and availability of IEC materials supporting the environmental management framework to selected LSGs, relevant functionaries and community institution partners.
- ✚ Ensure including the necessary activities related to the environmental safeguards, such as trainings, studies, etc. in the project procurement plan if relevant;
- ✚ Assist PMU/Municipalities / PEAs in operationalizing the methods, procedures, and systems for introduction of environment compliance practices into the existing systems of respective agencies;
- ✚ Ensure that all legal and regulatory provisions relevant to the environmental safeguards are satisfactorily met through the project processes.
- ✚ Facilitate the creation and documentation of experiences, lessons learnt, case studies, success stories etc.

4. Reporting Requirements

Environment Expert will report to the Project Director / Additional Project Director at the SPMU. She / he will effectively:

- ✚ Maintain full documentation of safeguards requirements and status of the same; for projects under different stages of planning and implementation,

- ✚ Submit report on random audits on ESMF Compliance during various project stages to the Project Director / Additional Project Director of the SPMU,
- ✚ Prepare and submit monthly progress report containing the list of activities planned for the reporting period, progress towards the target and the result of targeted activities shall be furnished to Project Director / Additional Project Director, which could be used for further reporting to the NPMU
- ✚ Carry out any other project related tasks assigned by the Additional Project Director / Project Director from time to time.

5. **QUALIFICATIONS:**

Master's Degree in Civil / Environmental Engineering/Environment Planning or Ph.D in Natural Resources Management, Environmental Studies/ Environmental Sciences/ Ecology or related field.

6. **EXPERIENCE:**

- ii. The environmental expert must have at least 8 years of working experience of which 4 years in the field of environmental activities as consultant or working in an institution which deals with environmental concerns.
- iii. The environmental expert must be fully conversant with the National / State / Local regulatory requirements on environment and infrastructure provision and aware of the environmental rules and regulations of the World Bank and must have completed, or involved in the preparation of, environmental impact study of at least two infrastructure projects. The expert must have preferably demonstrated sound technical expertise in international good practices on environmental safeguards.
- iv. Work experience especially in environment related activities for World Bank / ADB or other Multilateral Development Banks will be an added advantage.
- v. Proficiency in computer applications including MS office.
- vi. Excellent written and oral communication skills in English, and local language. Communication Skills in Hindi as well; will be desirable.
- vii. Ability to work efficiently and effectively in a multidisciplinary team. Good interpersonal skills and prior experience in efficient stakeholder consultations and consensus building in India would be an added advantage.

7. **DUTY HEADQUARTERS**

The duty headquarters of the Environment Expert will be at Karnataka Project Management Unit, Mangalore. The Expert will be required to travel frequently within and outside the State for project purposes.

8. **REMUNERATION:**

Approximately Rs.75,000/- Per month

9. **CONTRACT PERIOD:**

Initially for 1 year and further extension based on requirement & performance and need in the project.
